

EXPLORER PROGRAM

DISCOVER YOUR PATH

We are passionate about developing the next generation of architects and engineers and helping provide the skills and experiences needed to help shape the next step of your career.

Interested in an LDG internship? | email recruiting@larsondesigngroup.com or visit larsondesigngroup.com/internships/

What if you could work alongside **engineers, designers, architects and technical staff** who are experts in their field?

We provide opportunities to help you discover your path through our internship program. by combining your classroom learning into action by working side-by-side subject matter experts, serving clients, and navigating complex project challenges.

Hands-on

Lunch & Learns

Job Shadowing

Career Development

We believe in learning by doing by providing opportunities that translate directly into the real world.

Meet and greet with Executive Leadership and other areas of our business to discover all the components that make up a successful firm.

Interns select a partnering division to explore other aspects of the design work.

Mock interviews, resume workshops and LinkedIn support are provided to showcase your internship experience, projects, and help build your portfolio.

“My mentor and the whole department I was in really made me feel as I was apart as their team rather than an intern. No matter who I asked, they were all willing to help me understand a task or concept without hesitation.”

- Noah Shafer
