Federal Contracts

Larson Design Group (LDG) provides comprehensive planning, design, and engineering services to the Department of War and federal civilian agencies through global IDIQ and Design-Build (DB) contract vehicles. We deliver projects of all sizes using traditional Design-Bid-Build (DBB) and Design-Build (DB) methods, as well as alternative delivery approaches including Design-Build to Budget (DB2B), Alternative Construction Methods (ACM), and Progressive Design-Build (PDB).

Operating both CONUS and OCONUS—including austere environments and any theater of operation—LDG combines the capabilities of a large firm with the agility and cost-efficiency of a mid-sized organization, delivering principal-level expertise on time and to the highest quality standards. LDG is also proud to be CMMC Level 2 (C3PAO) certified.

Services

- Alternative Delivery
- Architecture & Interior Design
- Civil Engineering
- Construction Services
- Cybersecurity
- Environmental
- Fire Protection Engineering
- Geotechnical Engineering
- GIS/Asset Management
- Landscape Architecture
- M/E/P Engineering
- Planning
- Process Engineering
- Structural Engineering
- Survey & Mapping
- Telecommunications
- Transportation Engineering
